## **Welcome to BAOIAM Photography and Editing Skills Course!**

## **Unlock Your Potential with Our Photography and Editing Skills Course**

Photography is the art and practice of capturing an accurate picture with the help of a camera. It involves understanding how to use a camera with the percent angle, camera setting, such as shutter speed and ISO to control the exposure and composition of a photograph. Talking about photo editing is the process of enhancing an image using softwares. Editing allows photographers to adjust colors, contrast and sharpness and remove imperfection and add creative effects to the digital vision. Both skills enable you to not only capture the picture you see but also shape it according to what you want. Both skills are widely in demand in today's world.

# PROGRAM OVERVIEW

- A photography and editing course provided a comprehensive introduction to the art of capturing and shaping images. It covers essential photography techniques, including camera settings, composition and lighting along with advanced methods like long exposure and macro photography.
- The course also delves into photo editing techniques, how to use different software to edit the picture perfect image and also how to apply creative tools in a picture.
- Throughout the course you will get practical knowledge and exercise of artistic deployment. This course equips you with the skills to create visually compelling photographs and edit them like a professional. So let's start together to master your photography and editing skills today by understanding the fundamentals of photography and knowing the cameras function in depth.
- By the end of this course you will gain confidence in your creative vision and powerful skills to edit emotions of any images with some mind blowing skills
